Communications Presentation Self-Assessment

Watch your video on SeeSaw using headphones. (app.seesaw.me) Using the chart below, assess yourself in each category. Put one checkmark in each row.

Success Criteria:

	No	Sometimes	Mostly	Always
I keep eye contact with the audience rather than looking at the screen, my notecards, or the floor.				
My volume is loud enough to clearly be heard throughout the room and in the video.				
My pronunciation is clear (not mumbling) and it is easy to tell what I am saying.				
My presentation slides back up what I am saying and help my audience to understand my information / claims.				
My slides are easy to look at. All font is easy to read (good color and size). I used small amounts of text rather than long paragraphs.
